HELP WANTED—MALE

YOU CAN AFFORD TO USE THE classified columns. The cost of a campaign, continued until your result is achieved, will be trifling compared with the value of that result. Suppose a case: You believe you should be earning a larger salary—a thousand dollars a year larger than your present position pays you. You spend from one to twenty-five dollars, say, in classified advertising—and get your desired position. Do you know of a more attractive investment? mh16-1f

When You Start a Classified Advertising Campaign— FINISH IT!

The time to stop advertising that property you have to sell is when you have found a buyer—and nobody ever followed that plan without profit.

The time to stop advertising for that office helper is when you have found and engaged the person needed—and such an advertising campaign never cost anybody a thousandth part of what the result was worth.

The time to stop advertising that house or apartment for rent is when you have found a desirable tenant—and nobody ever lost any considerable rental income through following that plan.

The time to stop advertising that used car or other article of value is when your sale is made—which is usually within a very brief time indeed.

When you start a classified advertising campaign you will always find it profitable to complete it.
